## **A new edition of “Avícola en conjunto con Porcinos” is coming**

**The exhibition brings together more than 7,500 visitors from Argentina and the world.**

The poultry and swine industry is preparing for one of the largest regional events: **Avícola en conjunto con Porcinos**.

The exhibition, which became a benchmark for businesses in the sector, will take place between **9 and 11 March at the Costa Salguero** Exhibition Center.

The eleventh edition of **Avícola en conjunto con Porcinos** will bring together more than 160 companies from Argentina and the world, who will have the opportunity to show the latest trends and innovations from two of the most thriving sectors of the Argentine meat industry.

In the same framework, the **13th International Seminar on Poultry Sciences** organized by the Argentine Chamber of Poultry Producers (CAPIA) will take place, in which the most prominent experts in the sector will speak. There, topics such as health, animal welfare, nutrition and the commercial aspects of the business will be addressed.

*“ We are very happy to return to the presence, under the strictest security protocols, so that exhibitors and visitors can make excellent deals again. The market was asking us to be face to face with colleagues and industry partners again, i and finally we will!”,* said Gabriel Pascual, Managing Director MBG & EVENTS.

For his part, Javier Prida, President of the Argentine Chamber of Poultry Producers (CAPIA), added: *“We are happy because after almost 4 years we will be able to meet again in **Avícola en conjunto con Porcinos**, together with leading companies in the sector, where they will show us the advances, developments and innovation that is constantly being incorporated into the sector. We hope to have the presence of local and regional public, as it has been since 1997 to date, making this event the beacon of regional poultry farming”.*

**Avícola en conjunto con Porcinos**, organized by MBG & EVENTS and CAPIA, is a must for all members of the sector and gathers in each edition more than 7,500 visitors directly linked to the industry.
